The Trail of the Lonesome Pine

Mr. and Mrs. H. R. Snedeker are here this week organizing and drilling some of our local talent, preparatory to "putting on" a home-talent rendition of The Trail of the Lonesome Pine, at the American theatre Tuesday night, Feb. 29.

The Vandalia Mail had the following to say of Mr. Snedeker and his play when it was staged there:

"The home talent play entitled 'The Trail of the Lonesome Pine' gave its first rendition Wednesday night to a packed house. The cast was fine and each and every character played his or her part with becoming grace and with that utter absence of 'stage fright.' The plot is good and portrays the rugged life in the mountains and pioneer life. The costumes and scenery greatly helped in the realization of the play. We have heard only words of approval for this production and tonight (Thursday) the play will be repeated to another packed house. 'Mr. Snedeker was very clever in the play and has proven himself a most efficient manager. We cheerfully recommend him to other organizations.'"

Farm For Rent

Nelson C. Fields.

O. B. Johnson, 172 N. Halsted Street, Chicago, Ill., president of the largest concern of its kind in the world, wants three or four men in Chariton county and several men in adjoining counties, to work for him spare time or all the time. He can use only those who have a rig or auto. Work is very pleasant and no previous experience is necessary. Work consists of leaving a wonderful new household necessity in the home on free trial. Tests at more than thirty of the leading Universities and the U. S. Government's Bureau of Standards show this new article to be four times as efficient as article now in general use in this section. Article is needed in every rural home and benefits every member of the household, bringing cheer, comfort and happiness into the home. Not necessary to be away from home nights. Pay from \$6.00 to \$15.00 per day according to ability and number of homes visited. In writing Mr. Johnson mention what townships will be most convenient for you to work in; what your regular occupation is; your age; married or single; how long you have lived in the community; what kind of a rig or auto you have; whether you wish to work spare time or steady; how much time you will have to devote to the work; when you can start, and about how many homes are within six miles of you in each direction. This is a splendid opportunity for several men in Chariton county and counties adjoining to make good money, working steady or spare time. Some of the field men earn \$300.00 per month; one farmer earned \$1,000.00 working spare time only. No investment or bond necessary.

Tree trimming was in order last week and many of the limbs of shade trees which overhung the street were clipped as well as trees further back in yards. They will present a fine appearance when they bud out and leaves do not keep the ground unhealthfully wet. The school campus has double the number of trees it should have, and that is true of some of the streets.

Hon. D. R. Francis Accepts.

Ex. Governor D. R. Francis has accepted the offer of the important position of ambassador to Russia tendered him by President Wilson. If the Russian government raises no objections and his appointment is confirmed by the senate, Missouri will lose her greatest man. The President is to be congratulated on Gov. Francis selection and his acceptance of the post. It is one of the very important places at this time and if the governor safely reaches St. Petersburg, he will fill the place in every particular.
